

Guidelines for PhD Qualifying Assessment of
the Department of Material Science and Engineering
National Chung Hsing University

Approved by Dept. meeting 2004/10/20

- I. The Guidelines are based on Article 9 of the Implementation Guidelines for PhD Candidacy Review of NCHU.
- II. PhD qualifying assessment is conducted by the Qualifying Assessment Committee at the Dept of Material Science and Engineering (hereinafter referred to as “The Committee”). The Committee, comprised of 5 to 9 members, must include members of the Academic Committee at the Department and the Advisor. Should there be less than five members at the Committee, the Dean shall select other full-time teaching faculty members to make up for the shortage. Members of the Committee may choose among themselves a committee convener.
- III. PhD Candidacy Assessment:
 1. The Assessment is carried out in accordance with the Requirements and Reminders for PhD Qualification Exams established by the Department of Material Science and Engineering.
 2. Students who passed the aforementioned qualifying exam shall apply for a PhD Candidacy Assessment, the approval of which will allow student to be registered as PhD candidate pursuant to policies.
- IV. The Guidelines have been approved by the Departmental meeting and take effect after review and approval by the Office of Student Affairs. All subsequent amendments are subject to similar process.
